PROFESSIONAL SUMMARY

Detail-oriented Computer Science student and web developer with hands-on experience building and deploying 3+ responsive, production-ready web applications using HTML5, CSS3, JavaScript (ES6+), and modern front-end frameworks. Open-source contributor with a project featured on the PWIOI open-source showcase, actively used by students for learning web development. Strong foundation in data structures, algorithms, and OOP. Seeking a software development role to apply technical skills and contribute to scalable solutions.

TECHNICAL SKILLS

Languages: C++, Java, JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries: React JS, Bootstrap 5, Tailwind CSS, Node.js, Express.js

Tools & Platforms: Git, GitHub, VS Code, Linux, Chrome DevTools, Notion, Netlify, npm

Core Concepts: Data Structures & Algorithms, Responsive Web Design, REST APIs, OOP, DOM Manipulation, Version Control, Cross-Browser Compatibility, Agile Development

Currently Learning: MERN Stack (MongoDB, Express.js, React, Node.js), TypeScript, Next.js

EXPERIENCE

AI Intern — Scaler's School of Technology (May 2024)

- Explored Generative AI, Prompt Engineering, and Large Language Model (LLM) applications, building 2+ AI-driven prototypes during the internship.
- Collaborated with mentors on AI-based learning activities and automation workflows, reducing manual tasks and improving process efficiency.
- Strengthened problem-solving and teamwork skills through project-based learning in a fast-paced, deadline-driven environment.

Open-Source Contributor (2024 – Present)

- Developed and open-sourced Code Editor Live, a browser-based code editor featured on the PWIOI open-source showcase, actively used by students learning HTML, CSS, and JavaScript.
- Maintained project documentation, reviewed issues, and iterated on user feedback to improve developer experience.

PROJECTS

Fitness Tracker Web App — [GitHub](#) | [Live Demo](#)

- Developed a responsive web application with 5+ interactive features for tracking fitness activities and user progress, achieving sub-2s page load times.
- Implemented dynamic DOM manipulation, client-side authentication, and Local Storage for seamless offline data persistence.
- Built with HTML5, CSS3, and Vanilla JavaScript; deployed on Netlify with responsive design and cross-browser compatibility.

Code Editor Live — [GitHub](#) | [Live Demo](#)

- Built an open-source, browser-based code editor with real-time live preview — featured on the PWIOI open-source page, actively used by students.
- Engineered Local Storage persistence, instant code execution, and zero-setup workflow for rapid prototyping with no backend dependencies.
- Designed a developer-friendly UI with responsive layout; maintained via Git/GitHub with continuous deployment on Netlify.

Personal Portfolio Website — [Live Website](#)

- Created a professional, responsive portfolio website with smooth CSS3 animations and optimized page performance.
- Implemented SEO best practices, semantic HTML5, and mobile-first responsive design for fast load times and accessibility.

EDUCATION

Medhavi Skills University — B.Tech in Computer Science Engineering (Jan 2025 – Present)

Relevant Coursework: Data Structures & Algorithms, OOP, Database Management Systems, Computer Networks, Operating Systems

Poona College of Arts, Science & Commerce — Diploma in Computer Science & IT (Jul 2024 – May 2025)

ACHIEVEMENTS & CERTIFICATIONS

- Open-source project (Code Editor Live) featured on the PWIOI open-source showcase, used by students for web development learning.
- Active Competitive Programmer — solved 200+ DSA problems on coding platforms (LeetCode, HackerRank).
- Built and deployed 3+ production-ready, fully responsive web applications from scratch.
- AI Internship Certificate — Scaler's School of Technology (May 2024).
